PLANiTULSA continues with more public workshops
Smaller workshops focus on three additional areas of Tulsa

TULSA, OKLA. – Now that the city-wide workshops are complete, the next step in the PLANiTULSA process is to focus on specific neighborhoods. After two small area workshops were completed in December, three more small area workshops will take place the week of January 26. All Tulsa citizens are invited to attend.

“We look forward to continuing the incredible momentum of the public engagement process of PLANiTULSA,” said Mayor Taylor. “People who have attended the small area workshops have provided significant input about what they’d like to see happen in their neighborhoods. I’d like to encourage all citizens to attend and voice their vision for Tulsa and their community.”

The January workshops will be held at Hawthorne Elementary School, First Evangelical Lutheran Church, and Webster High School. These workshops will give participants a chance to delve into smaller focus areas and make detailed recommendations for desired land use, transportation, urban design, and development opportunities. Additional information and registration for these workshops is available on the PLANiTULSA website:
<http://www.planitulsa.com/events-workshops>

Two additional workshops will take place on February 23 and 24. Details about these events and will be posted on the PLANiTULSA website at the end of January. This April, after all citizen input is recorded, PLANiTULSA will unveil four possible scenarios for the city’s plan. Citizens will have the opportunity to review and respond to the scenarios before the final plan, policies and strategies are developed based on the scenario and workshop input.

The City of Tulsa is working with Fregonese Associates, a nationally-recognized firm on planning issues. Staff from Fregonese Associates will preside over the workshops, with assistance from local volunteer facilitators. Participants will work together in small groups to build maps outlining future development strategies for each area, including locations for homes, jobs, transit and open spaces.

- A North Tulsa small area workshop is scheduled for January 26, from 6 p.m. to 9 p.m. at Hawthorne Elementary, 1105 E. 33rd Street North. Free parking is available. Registration begins at 5:30 p.m. and light snacks will be provided.
- The Forest Orchard/Hillcrest small area workshop is also scheduled for January 26, from 6 p.m. to 9 p.m. at First Evangelical Lutheran Church, 1244 S. Utica. Free parking is available. Registration begins at 5:30 p.m. and light snacks will be provided.
- The Southwest Tulsa small area workshop is scheduled for January 28, from 6 p.m. to 9 p.m. at Daniel Webster High School, 1919 W. 40th Street. Free parking will be available for all attendees. Registration begins at 5:30 p.m. and light snacks will be provided.
- To pre-register for any of these workshops or obtain further information, visit www.PLANiTULSA.org or call (918) 576-5684.

PLANiTULSA is a community-wide planning project that will examine current development and economic trends through an inclusive citizen engagement process. In addition, the project will develop a vision for how Tulsans want the city to grow over the next 30 years and put an implementation plan in place to achieve this shared vision of Tulsa citizens. Through the process of updating the comprehensive plan, city officials, citizens and business owners will create a shared vision and a framework for future development of land and infrastructure.

Tulsa's current comprehensive plan was completed in 1978 and is due for an update to reflect changing economic trends, technological advances and residents' expectations. Typical comprehensive plan components include land use, transportation, economic development, urban design, public facilities, housing and neighborhoods, environmental protection and conservation.
